July 19th/98

Dear Cousin Edith

I just got home this afternoon from visiting Georgia and found your letter awaiting my arrival. How glad I was, for I have been anxiously awaiting a letter from my little lassie in Livster, and as procrastination is the thief of time I will not procrastinate but answer at once.

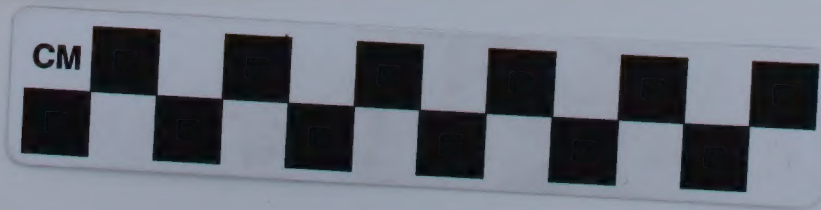

We drove down to Georgia Mon. evening while it was cool and back this morning (Wed.) the drive was lovely. Don't know when I enjoyed a drive so much (17 mi.) Yesterday Georgia had from her garden for dinner new beets, cabbage, peas, ^{cucumbers} and potatoes, all so nice, and in the evening we had or made ice cream and eat just like country rustics "of the first water". G. has things very handy for a country home, water and sink

right in the kitchen by the stove,
refrigerator in the dining room & every thing
in general handy. Her husband helped her
quite a good bit about the work.

Last Friday night the C.E. Socy. had an
icecream festival here it was on the
lawn. Had a very nice attendance
took in about \$20. I got almost sick
of cake and icecream that was left for
home consumption. How I wish you
could have been here. I would rather
have you now though while it is so nice
and cool. This evening the air is just
bracing. Now Dear Edith I do hope you will
not put off coming to long take your
vacation before you are obliged to by sick-
ness, we will likely be at home for a month
with the exception of being out some
during the day and for a day or so at a time
so now I hope you may be able to plan
a good long visit soon.

Did you know that Theo King was buried
last Sun. It seems hardly possible
to me. I was to had about your patient
I'll warrant you felt badly.
I am so glad we have such a good cousin

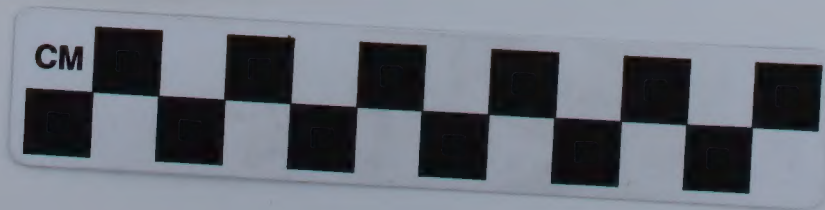

who is so good to you, but who could
help ~~being~~ good to Edith. I would
like very much to see our cousin Mrs. C.

Our dear little Ethel are out weeding
the flower bed I wish you could see &
she acts as if she was superintending
the work. We have had her pictures taken
~~lately~~, she is loving the image of a little
boy, the artist tried to get several fancy
pictures of her but that was the only
one we could get of the little figit

We were out to Berlin to a S. S. Convention
Pres. Dillars of Hiram college opened the
conv on Sun. & such little games as Mr.
Dike followed the conv. was very good we
thought had a great variety of speakers
an an excellent attendance.

Well C. I did not writing to write much
but I will say as Paul See how long a
letter I have written with mine own hand

I wanted to let you know that we
would open heart and hand any time

for a month to receive you.

I have succeeded in coaxing Grant
to give up going to the Fair at least
for a time

Good night

hope to see you in the near
future

Lovingly

Allice P
